Remote control receiver

Miniaturized 2-channel indoor receiver for wireless control of lights or operators

ADVANTAGES

With MIME AC, turning lights on and off or controlling the opening of a shutter has never been easier! In fact, via a Bft remote control this new miniaturised receiver makes it possible to control lights or operators from anywhere in your home, without having to intervene on the existing electrical system to move switches and/or buttons.

RECOMMENDED ACCESSORIES

	<p>D111904 - MITTO B RCB02 R1</p> <p>Transmitter with 2 channels. Range 50/100 m. Power supply 12 V with 1 battery type 23 A</p>		<p>D111906 - MITTO B RCB04 R1</p> <p>Transmitter with 4 channels. Range 50/100 m. Power supply 12 V with 1 battery type 23 A</p>
	<p>new D111947 - MITTO B RCB04 R1 CLEAR ICE</p> <p>Transmitter with 4 channels. Range 50/100 m. 12 V power supply with 1 23 A battery. Colour clear ice white. Buttons panel can be customised with own design/logo.</p>		<p>new D111946 - MITTO B RCB04 R1 SUNRISE</p> <p>Transmitter 4 channels. Range 50/100 m. Power supply 12 V with 1 battery type 23 A. Colour: sunrise yellow</p>
	<p>new D111945 - MITTO B RCB04 R1 VINEYARD</p> <p>Transmitter 4 channels. Range 50/100 m. Power supply 12 V with 1 battery type 23 A. Colour: vineyard red</p>		<p>N999522 - CLIP B 00 R04</p> <p>Wall mounting clip for KLEIO B RCA and MITTO B RCB remote controls. 30 unit pack</p>

Remote control receiver

RECOMMENDED ACCESSORIES

	P121016 - RB 4-channel wall-mounted radio control with rolling code		new P121024 - Q.BO TOUCH Wireless digital touch button panel 433 MHz rolling code.

Remote control receiver

What is U-Link?

The technology that gives you more power

U-Link, Universal Link, is an exclusive BFT platform that can be used to create high-tech ecosystems. In Home Access Automation, it can be used to communicate with all home access automation devices of any brand. This saves you time and allows you to control everything easily and without any worries.

It is intuitive

Easy to install and to use

It is scalable

You can add as many devices as you want

It is flexible

It allows you to create groups of interconnected products

It is practical

Works with or without an internet connection

It is functional

Its settings can be controlled remotely using dedicated applications

Remote control receiver

Everything on one screen: find out more about this amazing technology

A world-exclusive platform that **can be used to create high-tech ecosystems** offering a vast range of solutions for many different sectors.

This proprietary platform which is a key feature of BFT products, thanks to the B-EBA cards and the Clonix U-Link receiver, is suitable for any protocol or product for access automation (including BFT products non-BFT ones and older versions) and it can be used in a variety of different sectors. This means any device becomes a smart device which can be interconnected with other systems, using a language that is becoming universal.

U-Control HOME

U-Control HOME is the application that allows you to open the gate to your home and to remotely control BFT automations using your own smartphone. The iOS version can be used to automatically open the automation when you are close to it.

U-Base 2

A software package for installation, performing maintenance and identifying any faults in the U-Link compatible operators, easily and conveniently.

U-SDK

U-SDK is the application which allows BFT automations to be made compatible and easily integrated with a BMS network.

Clonix U-Link

Connect non-native U-Link and non-BFT products to U-Link systems.

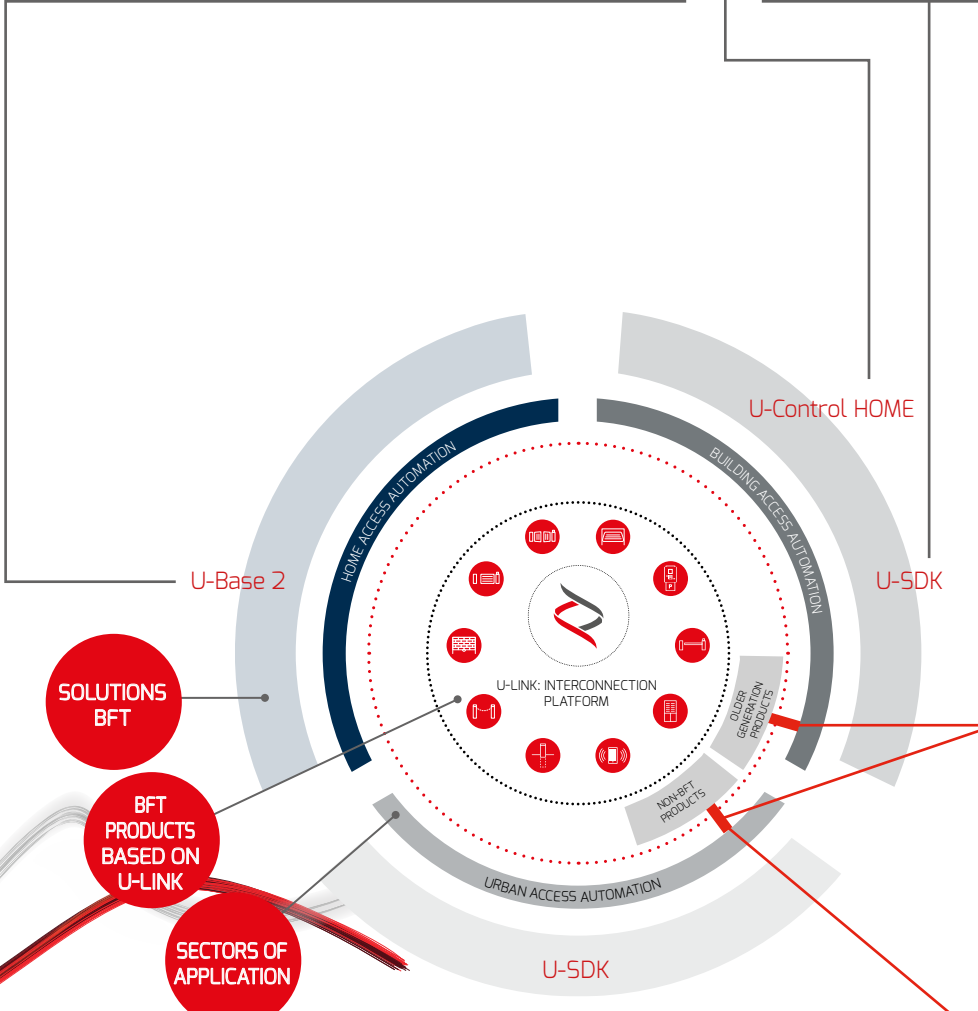

Is it possible to connect non-native U-Link BFT operators or other brands of products to U-Link? Yes, thanks to the Clonix receivers. Accessories which accept no limits.

B-EBA

A direct link to your operators.

The B-EBA expansion cards make it possible to connect external devices such as PCs, smartphones and tablets to a BFT operator and a Clonix receiver or to connect multiple BFT products in a U-Link network. These accessories integrate with U-Link technology and with Bluetooth, Wifi, Z-Wave and TCP/IP protocols as well as with the RS485 serial interface. A device that demonstrates exactly what BFT means by interconnectivity.

INFORMATION REGARDING THE PROTECTION OF THE INDUSTRIAL AND INTELLECTUAL PROPERTY RIGHTS OF BFT. BFT S.p.A. protects its industrial property by depositing trademarks, patents, models and designs. The intellectual property of BFT S.p.A. is protected by copyright law. BFT S.p.A. also protects its know-how by taking measures to protect the technical and commercial information inherent in its company and products. All the products in this catalogue are ORIGINAL BFT MODELS and only BFT S.p.A. is authorised to produce them and market them anywhere in the world. All the commercial names in this catalogue are owned by BFT S.p.A., and only BFT S.p.A. is authorised to use them in relation to the corresponding merchandise category. FALSIFIERS WILL BE PROCEEDED AGAINST IN ACCORDANCE WITH BOTH CIVIL AND CRIMINAL LAW.
